About Me

I'm Annette, founder and formulator of Burnt Orchid Organics—a botanical sanctuary where scent becomes ritual, and every product is crafted to soothe the nervous system and stir the soul. As a neurodivergent creator, I design fragrances, ritual guides, and sensory kits that honour emotional regulation, poetic storytelling, and inclusive design.

Each blend I create is rooted in botanical alchemy and emotional resonance, woven with intention and regulatory care. From IFRA-compliant scent profiles to printable burnout recovery planners, my work bridges the mystical and the meticulous. I believe in gentle rebellion, in crafting spaces where sensitivity is strength, and in transforming everyday moments into rituals of restoration.

Burnt Orchid isn't just a brand—it's a living archive of resilience, rebellion, and sensory grace.

Time : 2-3 Minutes

When anxiety peaks or you feel disconnected, this sensory technique brings you back to the present moment.

What to do:

- **5 things you can SEE**
- **4 things you can TOUCH**
- **3 things you can HEAR**
- **2 things you can SMELL**
- **1 thing you can TASTE**

WHAT TO DO:

See: Look around and name them (Pink mug with hearts, Black Tote Bag etc)

Touch: Feel different textures (Smooth phone, rough fabric etc.)

Hear: Notice sounds around you

Smell: Take gentle sniffs

Taste: Notice what's in your mouth, sip water

Pro tip: Keep a calming room spray nearby for the “smell step”- Lavender or chamomile work beautifully

The Box Breathing Reset

Time: 3-4 minutes

The Pattern

- Breathe IN for 4 counts
- HOLD for 4 counts
- Breathe OUT for 4 counts
- HOLD empty for 4 counts
- Repeat 6-8 times.

Make it work for you

- Count slower if 4 feels rushed
- Use 3 counts if 4 feels too long
- Picture drawing a box in your mind as you breathe
- Place one hand on chest, one on belly-feel the calm rhythm

Perfect for ADHD minds that need structure, or when anxiety makes breathing feel difficult
